## 24/7 MONITORING & PROTECTION

WASENS protects your clients from extensive water damage and can help them manage systems wisely:

- Detect & stop hidden and visible leaks in real-time to avoid severe damage
- Discover uncontrolled irregularities in your water consumption
- Enjoy significant savings of water and unnecessary expenses
- Minimize maintenance costs

**IN 2022 OUR SYSTEMS DETECTED AND ALERTED OVER 17,000 LEAKAGE EVENTS.**

Powered by innovative technologies, we ensure 24/7 protection from major water damage, while enabling full monitoring, detection, and control of water consumption.

The Systems' configurations are diverse and can meet the various needs of any specific property- or properties - small or large-scale.

Clinics & Hospitals	Private Residences	Residential Complexes	Municipal Properties	Office Buildings	Commercial Centers	Industrial Parks

## PROVEN SAVINGS

WASENS solution implementation has significantly reduced water consumption in educational institutions and other municipal institutions.

Our systems have delivered up to 45% savings in water usage.

## SMART AND EASY!

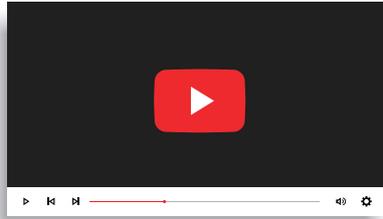

The WASENS APP turns your smartphone into an information station of the water system in your property. A cloud-based Central Monitoring Station can be provided to manage numerous sites in different locations. WASENS enables automatic control of all water valves and provides the ability to remotely monitor and manage the system in real-time.
